FROM: [redacted]
Chief, Intelligence Producers Council Staff
SUBJECT: External Research Report, 2nd Quarter, Fiscal Year 1988

1. As part of our continuing efforts to assist the Intelligence Community in production-related matters, the IPC Staff collects and disseminates data on the Community's external research contracts. Such reporting serves the following purposes: 25X1

- Helps make producers aware of contract proposals being considered by other intelligence organizations. 25X1
- Permits comparing proposals by other producers in order to reduce duplication.
- Identifies situations where cooperation in contract efforts would be mutually advantageous.
- Makes the producers aware of the progress and products of contract efforts. [redacted]

2. The attached listing includes all contracts throughout the Community that have been reported for the first and second quarters of FY 1988. The data are arranged by region and contract status for ease of access. [redacted]

3. The IPC Staff is currently reviewing the program procedures required for greater automation of the data base. In the near future, we will send each participating organization a copy of the revised procedures and instructions for providing updates to the file. If there are any questions, please contact [redacted] 25X1
